

Personalized health care device for modern people

IASO®

IASO :Goddess of healing in Greek mythology.

a typical pain condition in modern people.

Carpal tunnel syndrome patient
30% increase annually

Tennis elbow patient
19% increase annually

Plantar fasciitis patient
179,000 increase in four years

* VDT : Video Display Terminal Syndrome (ex. Carpal tunnel syndrome, Text neck, lumbar disc ...)

** Source : k-health(korea health media), Health Insurance Review & Assessment Service of South Korea

**Your body becomes uncomfortable with heavy work or sporting activities
It will develop into chronic pain if you do not have time to go to hospital.**

Market

[Hospital → Home & Daily Care]

Homecare Medical Devices Market: Overview

According to American Association for Homecare more than 8 Mn Americans depend on durable medical equipment and services at home to treat conditions. Fueled by the rising number of elderly people and technological advancements, the global homecare market has experienced significant growth over the past decade. A pivotal factor in the growth of this market has been the increasing healthcare cost, which have shifted the focus of healthcare from hospitals to home.

[Significant growth of Medical Devices Market in Asia Pacific]

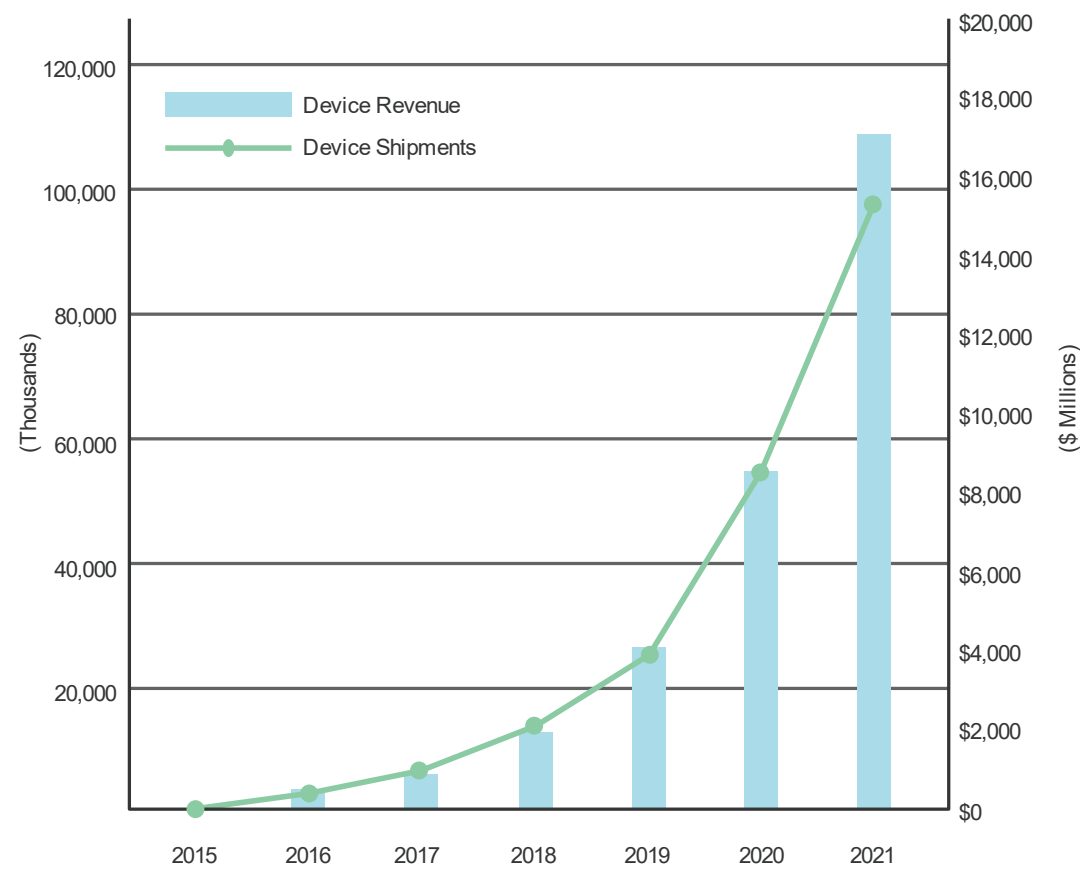

Homecare Medical Devices Market: Regional Overview

North America is the largest market for homecare medical devices, followed by Western Europe attributed to the increasing old age population in these regions. Asia Pacific excluding Japan (APEJ) and Japan are growing at significant growth rate which is followed by Middle East & Africa.

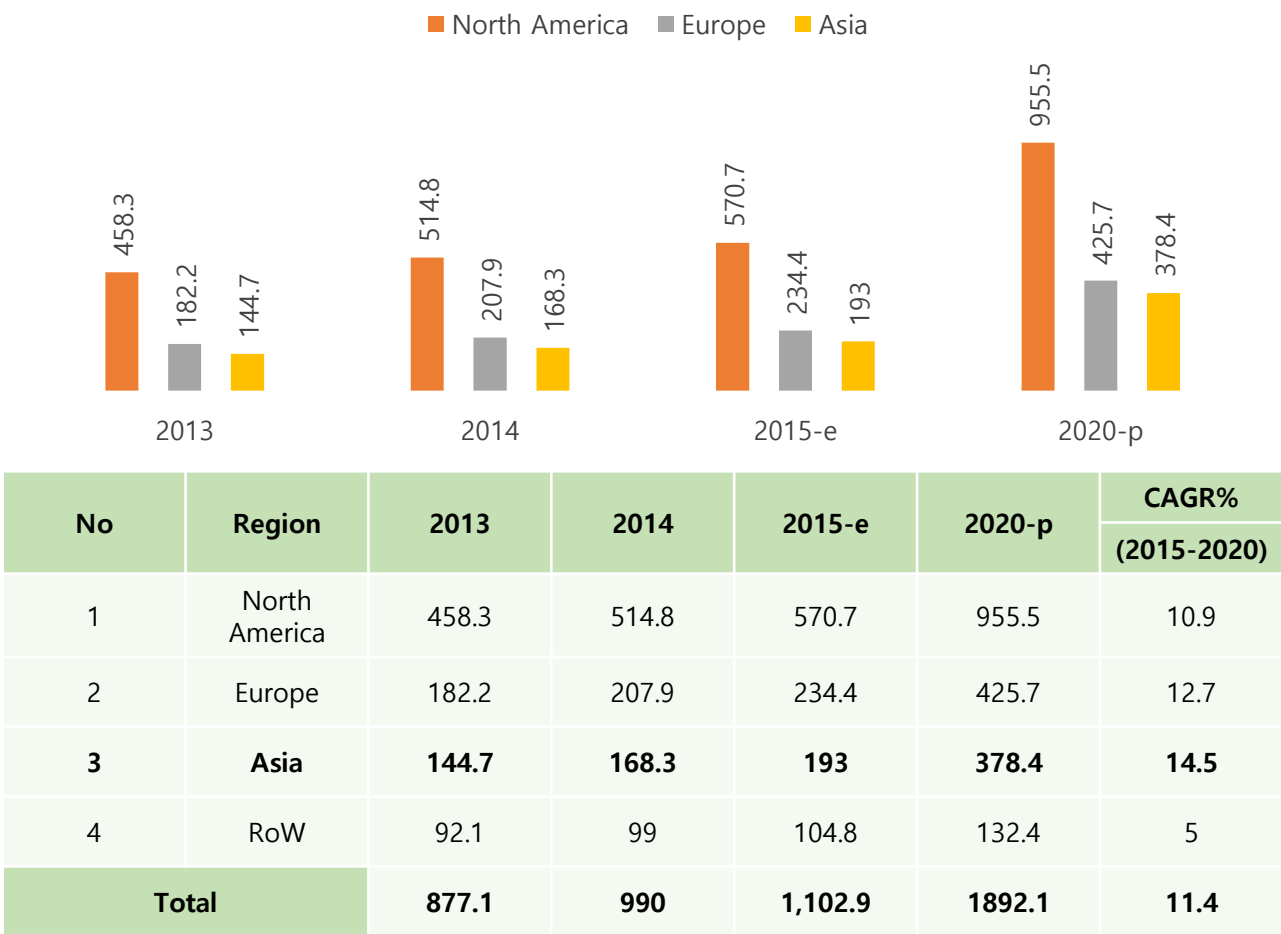

Market

- The personal medical device market has grown 11.4 percent every year, forming a 2.2 trillion won market in 2020.
- The North America is the most largest market in the World.
- The Europe market is the market has an annual growth about 12.7%

Healthcare Wearable Device Shipments and Revenue, World Markets : 2015-2021

Personal Medical Device Market

Stop wasting money on ineffective massager!

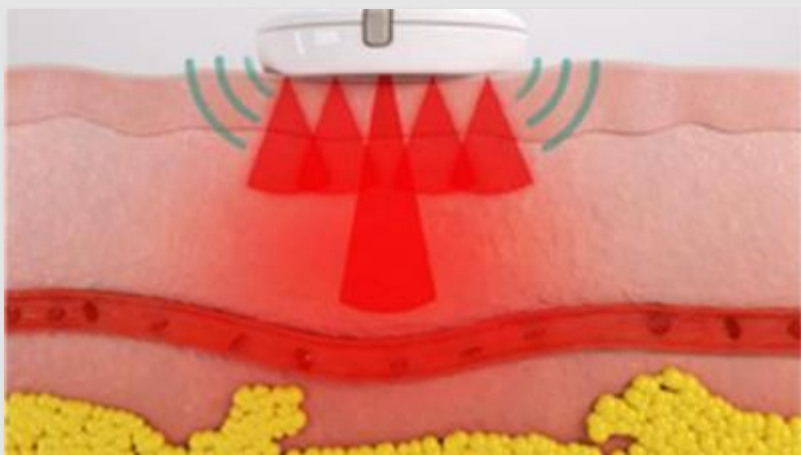

Let's use IASO from now

IASO_[IASO] stands for the goddess of healing.

IASO[®] Self-care realization in everyday life as an ultra compact cold laser therapy device

What is cold laser?

Promotes blood circulation by increasing vasodilation and blood flow Activation of ATP (Adenosine Triphosphate, Energy Cells) & Protein Production
Active research into treatment technology in hospital in North America. No pain, No stress, No need drugs

IASO's unique cold laser technology

650nm & 830nm Dual Wavelength Cold Lasers Proven by Global Clinical Data
Best condition recovery, heat / vibration massage
Miniaturization of large-size cold laser devices and commercialization of wearable cold laser devices
12 patents registered in domestic and global and awarded the Ministry of Science and Technology in Korea.

IASO's triple complex action

Internationally recognized high-tech healthcare solution

Power off

Standby

Operating condition

Mode1 (Laser)

If you press the button once in the blue light standby mode, only the laser comes out without vibration.

Mode 2 (Laser & Operating condition)

If you press the button twice in the standby state, the same vibration energy comes out continuously with the laser.

Mode 3 (Laser & Pulse vibration)

When the button is pressed three times in the standby mode, pulse vibration energy comes out with the laser.

Setting a new standard for healthcare devices!

Do not use anything on my body! Please select and choose carefully!

Check 1 : Excellent performance

Is it really effective for **inflammatory easing** ?

Check 2 : High stability

Can anybody use it without problem?

Check 3 : **superior technical ability**

Do they have domestic and international patents?

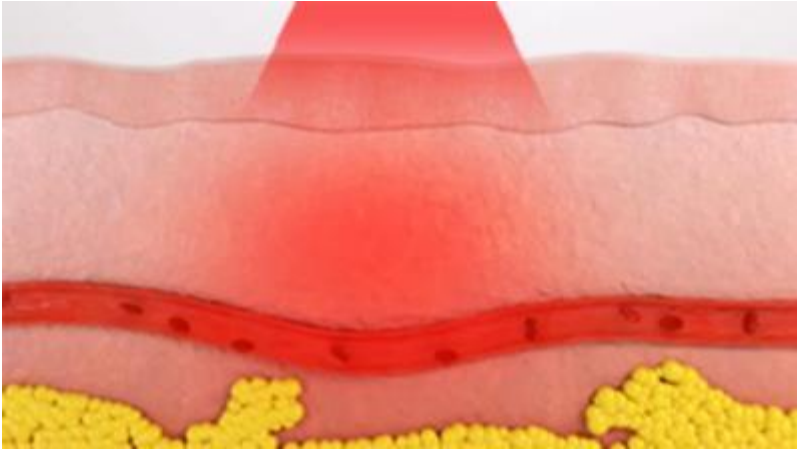

Check 1 : Excellent performance

Make sure it's really effective energy!

LED

Disperse due to natural emission

Low and weak

IASO Single Package Product

The IASO Single Package includes IASO (Device) 1EA, Wear Band, Charging Cable, and User Manual.

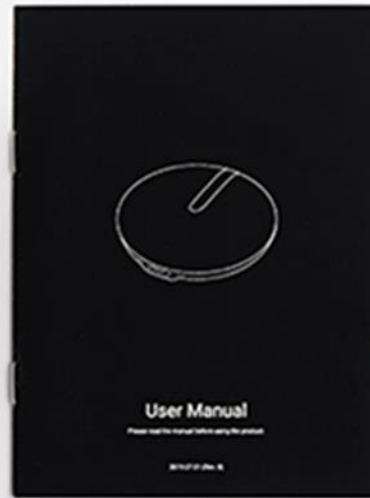

IASO 1ea

Wearing band

IASO package

User Manual

Use single package on these areas

Wrist

Elbow

Sole

IASO Double Package Product

IASO double package includes IASO (device) 2EA, carrying tray, wearing band, 40 adhesive patch, 2 hole charging cradle

Use double package on these areas

Shoulder

Neck

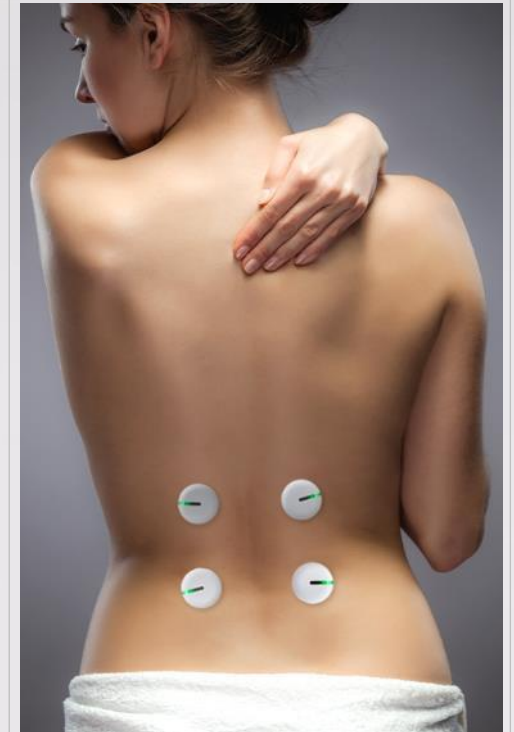

Knee

IASO Quadruple Package Product

IASO quadruple packages include IASO (device) 4EA, carrying tray, wearing band, Consists of a 4-hole charging cradle, charging cable, adhesive patch (40EA), and a user manual.

Use quad package on these areas

Back, Waist, Calf

Instagram Review

IASO is already used by many sports players and chiropractors in the US, and influencers.

U.S. Online

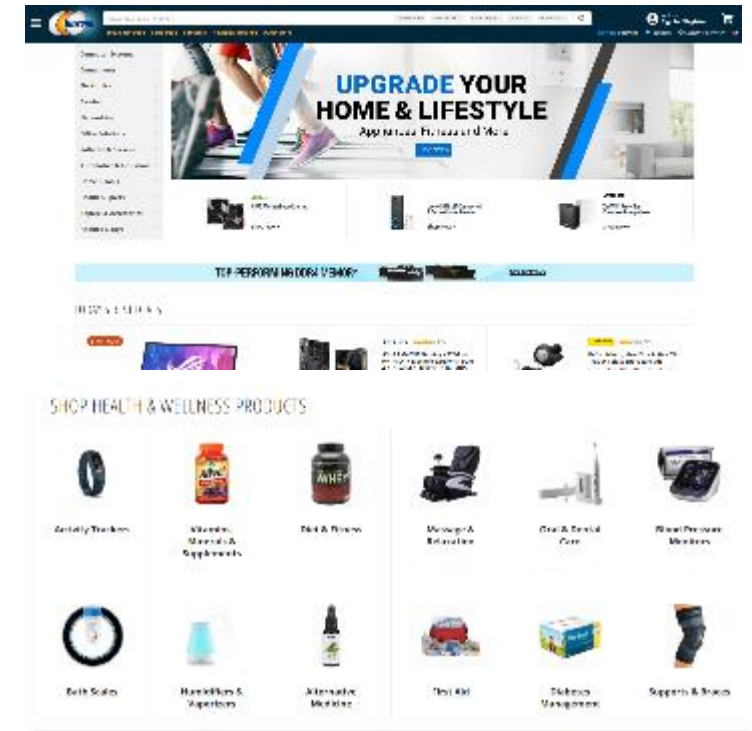

Amazon is one of the first Internet shopping malls and the world's largest online shopping broker.

On Sale

Touch of Modern is a member-only e-commerce website and an app focused on selling lifestyle products, fashion and accessories to men.

On Sale

New Egg is a online computer hardware and software shopping mall, including health care device and lifestyle.

Launching soon

U.S. Offline

b8ta is a retail-as-a-service company with a chain of retail stores which serve as presentation centers for consumer electronics and other innovative products.

Launching on April in 2020

Best Buy is a large U.S. retailer that sells electronics and computer-related products comprehensively.

Launching on May in 2021

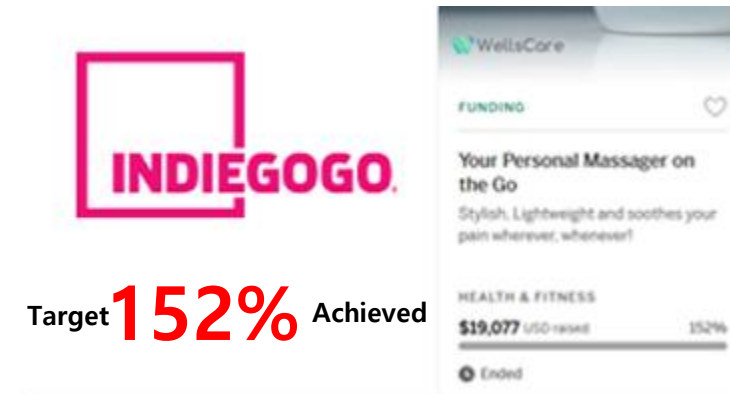

Target Corporation is an American distributor. It is a large discount store that handles processed food, everyday miscellaneous goods, furniture, clothing and electronics, and is the eighth-largest retailer in the United States.

Launching on 2022

Participating Exhibitions and Crowdfunding

Wellscore participated in various domestic and overseas exhibitions such as TechCrunch, CES, KIMES, and achieved successful results with crowd funding such as Indigo and Makuake.

Product Specification

Color	White
Weight	28g
Size	48mm*48mm*12mm
Power input	5V, 2A
Laser Wavelength	650nm, 830nm
Laser Class	3R
Laser Power	Max 5mW
Charging Duration	approximately 60minutes for a full charge
Operation Time	[When Mode 1 is in use] 2 x 30 minute session (approximately 60minutes) [When Mode 2 or 3 is in use] 30 minute session + 20 minute session (approximately 50minutes)
Vibration Massaging Function(2mode)	

Personalized health care device for modern people
